

Educational Documentaries on YouTube

*This is a collection of educational documentaries I've found on YouTube. Please note that some of the titles in this list may not be appropriate for use in a classroom or for a particular age of students. **Be sure to entirely view any documentary before making a decision to use it with students.** I share this list not as personal recommendations (I haven't even watched them all yet), but as a list resulting from a treasure hunt for educational materials. (Nathan Smith, Director of Technology, Emma Eccles Jones College of Education & Human Services, Utah State University)*
